

Dictation Contest (PRJr, 初級) No. 1012

Hello, my PR Junior friends!

It is almost spring break! Have you made any plans?

I'm going to talk about my day today.

When I was riding my bicycle to school, I passed by a window full of stuffed animals. I looked closely and saw a white cat sitting next to them. It was so cute, and it made my day! I also saw a lot of dogs today, since it is a Saturday.

Okay, that is all from me! See you!

Dictation Contest (PR 1, 中級) No. 1012

Hi, everyone! Welcome back to PR 1!

Today I will talk about nature. Let's begin!

Everything we see around us is made of nature, including the sun, the moon, trees, flowers, fruits, human beings, birds, animals, etc. In nature, everyone depends on one another to keep the ecosystem healthy. For survival, every [creature] is related with one another. Humans, for example, rely on nature for their survival, and nature provides us with oxygen, food, water, shelter, medicines, and clothing, among other things. Many shades may be seen in nature, contributing to the planet's beauty. Along with humans, animals and birds also find their habitat and means of survival in nature. Therefore, it is essential to take proper care of our nature to maintain a healthy life.

That's all for today! See you!
