Hello, everyone!

Do you have any hobbies?

One of my hobbies is taking pictures. I really enjoy taking photos with my camera, and editing photos on my computer. I want to get better and better, so I practice as much as possible.

Please tell me about your hobbies!

Okay, guys, see you next time!

Hey, guys! How's it going?

Do you have any interesting hobbies?

Of course there are many things that I like to do in my free time, but my main hobby is taking pictures. I became really interested in photography a few years ago and since then I have been trying to improve my skills in taking and editing photos. Actually, I think learning how to edit photos well is just as important as learning how to take photos – and it's definitely more time consuming.

If you have any questions about photography, or my other hobbies, please let me know! And please tell me about your interesting hobbies! Okay?

Alright, guys, see you soon!

Hey, guys! How are you doing?

Hope you're all still staying careful and safe.

One of the things people often talk about in their self-introduction is their hobbies. And as some of you may know, my main hobby is photography. I first noticed that I enjoyed taking photos many, many years ago, but I didn't really become passionate about photography until relatively recently. Now, going out and taking photos around Tokyo, and then sitting at my computer and editing those photos to emphasise a certain mood or impression, is my favourite thing to do.

I usually take photos of urban scenery, which involves walking around the streets of Tokyo to find cool scenes with buildings or traffic or people, but I also like taking photos of natural scenery, and sometimes people, too.

This camera is a pretty basic DSLR, but it does what I need it to do fairly well.

If you have any other questions about photography, please let me know! And if you want to see some examples of my photos, you should check out my Instagram ;)

Okay, guys, as always, study hard, stay safe, and I'll see you soon.
